Notes: 1. Data for 'Jan 2017' is as of January 1, 2017. 2. SC: Scheduled castes; ST: Scheduled tribes; OBC: Other backward classes. 3. pp: percentage points (the difference between two percentages). 4. NA: Not available. 5. CY: Calendar year; FY: Financial year. 6. Civil police includes district armed reserve police.

HOW TO READ THE DATA: Since each indicator has a different unit, to enable comparison, we rebased values to score the state's performance in a band of 1 to 10. The line graphs show how the state compares, on each indicator, against the other 17 large and mid-sized states. The longer the lines, the better the state is doing. 'Worst value' and 'best value' point to the highest and lowest results in that indicator.

HOW TO READ THE DATA: Since each indicator has a different unit, to enable comparison, we rebased values to score the state's performance in a band of 1 to 10. The line graphs show how the state compares, on each indicator, against the other 17 large and mid-sized states. The longer the lines, the better the state is doing. 'Worst value' and 'best value' point to the highest and lowest results in that indicator.

HOW TO READ THE DATA: Since each indicator has a different unit, to enable comparison, we rebased values to score the state's performance in a band of 1 to 10. The line graphs show how the state compares, on each indicator, against the other 17 large and mid-sized states. The longer the lines, the better the state is doing. 'Worst value' and 'best value' point to the highest and lowest results in that indicator.

About India Justice Report

The India Justice Report 2019 provides the first comprehensive quantitative index that ranks the capacity of the formal justice system operating in various states on their police, prisons, judiciary and legal aid. This ranking was supported and facilitated by Tata Trusts in partnership with DAKSH, Commonwealth Human Rights Initiative, Common Cause, Centre for Social Justice, Vidhi Centre for Legal Policy and TISS-Prayas.
